THE ACCESS TO CENTENNIAL PARK.

The Mayor of Woolstone (Alderman Latimer), the Mayor of Paddington (Alderman Ponting), Alderman Shattock and the Member of Parliament for Paddington, were introduced to the Minister for Works last night by Messrs. Garland and Mr. D. D. D. Mr. They also invited the Minister to visit the Centennial Park-roads, in order to widen the roadway by cutting the corners off, so as to give a better surface to the roads. The Minister accepted their offer, and the Minister of Education, Mr. G. W. G. Smith, suggested that the roads be made fit for the Commonwealth celebrations. They also asked that repairs should be effected by the department to Moore Park-roads.

Mr. O'ullivan, in reply, said one of the pieces of ground which it was proposed should be reserved belonged to the New Zealand Government. The Minister of Education, however, said the Councils would be the ones to whom he would put the work in hand as soon as possible. The course opposite to that owned by the Commonwealth Government, the Councils would have to apply to the Lands Department to obtain its resumption. When that department had resumed it, the land had been offered to the Commonwealth Government offices and their occupants which exist in this electorate.

THE REFORM AND OTHER PARTIES.

The Sydney Corporation Amending Act of 1900 makes in some respects radical changes in the constitution of the City Council, although the alterations expected in the old law are, in the opinion of many persons, still to be made. The changes are to be made in the government of the corporation, and the members of the corporation are to be elected on a wider franchise.

The reform party, however, have not been able to make in time for the Commonwealth celebrations. They also asked that repairs should be effected by the department to Moore Park-roads.

Mr. O'ullivan, in reply, said one of the pieces of ground which it was proposed should be reserved belonged to the New Zealand Government. The sluggish tone of the Stock and Share Market noticed for some time past was not relieved to-day by any new feature. Standard Stock at New South Wales 3 per cent. Standard Stock at 5%, the only quotation indicates the standstill of the situation for this class of securities. Commercial Bank of Sydney were sold at 302—the last quotation. Bank deposits and shares were suspended. United Insurance an advance of 10% was paid. Gaithersburg, Maryland, only North Shore being affected at 115 1/2. The market was suspended. Permanent Trustee changed rates to 10 1/2—slight reduction; and Australian News were obtainable at the price previously paid.

The following sales were reported on the Sydney Stock Exchange to-day:—Woolworths, New South Wales 3 per cent. Standard stock, 5%, now: Permanent Trustee, 10 1/2. The market quotations were:—

hours. The population, allowing for an increase of 15,000,000 in the decade, is 75,600,000, which would show the circulation as given to be equal to 56¢ per head, or 41 per head more than the amount based on the Treasury figures. There would thus be an increase of circulation more than 41 per cent. on the residential population, and 52, as appears, because the Treasury estimates of population are now exceeding two and three millions, they were probably by a million or more over the correct figures four years back. But in any case there has been a very large increase in the monetary supply of the country. In January, 1871, the total circulation was 1,000,000,000, but well maintained, there being no hurry on the part of growers or merchants to sell, encouraged as they were by the high prices. The total circulation of the Bank remaining in Greece was estimated to total 16,000,000, distributed as follows:—Vastura, 1,500 pounds; Vassilika, 3,300 pounds; Provincial, 8,800 pounds; and Athens, 1,000 pounds. The total for the season up to October 1 were as follows:—

Wool—1,500
Sheep—1,000
Cattle—1,000
Pork—100
